eviXscan 3D Heavy Duty Quadro

First 3D scanner ready to scan in almost all conditions. With this device, 3D scanning outside or in harsh conditions is possible. Thanks to 2 changeable scanning ranges it allows you to scan medium to large objects. Thanks to its 4 5Mpix cameras, this scanner is a highly versatile and professional device. Heavy Duty Quadro is 3D solution ideal for scanning service providers and companies designing and producing elements that require quality control, reverse engineering and rapid prototyping.
