

### York 5x1/8x7/8 C24TBF FLAT CUTTING DISC

Grade A30 - For general-purpose use on metals. Grade C24 - For use on stone and non-ferrous materials. Grade R30 - For use on stainless steel. Grade X24 - Special, for use on cast iron. Type 41 Flat Reinforced Cutting Manufactured to assure operator safety and optimum performance. For use with all portable angle grinders. 180mm to 230mm discs can also be used on circular saws and 300 to 350mm discs are for use with chop saws/cut-off machines, subject to bore compatibility. Not to be used for wet cutting.

| Specifications        | Details                                    |
|-----------------------|--|
| Grain Size            | 24-Coarse                                  |
| Bore                  | 22   |
| Hardness              | Very Hard                                  |
| Additional Conformity | Manufactured According to EN12413          |
| Thickness             | 3 mm                                       |
| Series                | Stone                                      |
| Grade Designation     | C24TBF                                     |
| Cutting Application   | For use on Stone and Non Ferrous Materials |
| Type                  | Type 41                                    |
| For Use On            | Non Ferrous Metal                          |
| Optimum Angle For Use | 90 °                                       |
| Abrasive Material     | Silicon Carbide                            |
| Special Features      | Good Performance Competitively Priced      |

| Specifications | Details                               |
|----------------|---------------------------------------|
| Disc Diameter  | 125 mm                                |
| Maximum RPM    | 12200                                 |
| Bond Type      | Resin Bonded with Fibre Reinforcement |
| SKU            | YRK2307000GTSK                        |
