

Norbar HT5/75 1 Manual Torque Multipliers 340-3400NM, Output Square: 1", Input Square: 1/2"

Multiple stages of epicyclic gearing are used in Norbar's 'HandTorque' multipliers to provide a wide range of torque outputs and ratios to suit most applications. The torque multiplication ratio is always quoted, not the velocity ratio as some competitors' goods claim. For example, a velocity ratio of 29.8:1 would result in a torque multiplication of 25:14%.

| Specifications | Details |
|----------------------|-------------------|
| Plate Torque | 19 N.m |
| Max Input Speed | 315 revs/min |
| Tool Weight | 7.9 Kg |
| Accuracy | +/-4% |
| Product Number | 16064.75 |
| Range Metric | 340 - 3400 N·m |
| Range Imperial | 250 - 2500 lbf·ft |
| Plate Weight | 2.5 Kg |
| Velocity Ratio | 93.137:1 |
| Input Square | 1/2" |
| Output Square | 1" |
| Multiplication Ratio | 75:1 |
| Model Number | HT5/75 1" |
