

Gedore TLS 0022 FH Preset Torque Screwdrivers

Accurate process control is ensured by eliminating under and over tightening due to the proven Gedore Torque slipping technology. These versatile tools are ideal for a wide range of applications by offering both bi-directional and one way slipping actions. Lightweight aluminium construction and smooth reset action of the tool increases production efficiency by reducing operator fatigue. Reduces the likelihood of warranty and rework by ensuring accurate torque application. These tools can be used by operators at any skill level, due to the unique slipping mechanism. Range: 2-22 cN.m

Specifications	Details
Product Number	015080
Brand	Gedore
Weight	72 g
Colour	Blue
Imperial	2.8-32 ozf.in
Range Metric	2-22 cN.m
Model Number	TLS 0022 FH
Drive Size	1/4"
