

Gedore Standard FH Preset Torque Screwdrivers

Accurate process control is ensured by eliminating under and over tightening due to the proven Gedore Torque slipping technology. These versatile tools are ideal for a wide range of applications by offering both bi-directional and one way slipping actions. Lightweight aluminium construction and smooth reset action of the tool increases production efficiency by reducing operator fatigue. Range: 50-400 cN.m

| Specifications | Details |
|----------------|---------------|
| Product Number | 015600 |
| Brand | Gedore |
| Weight | 280 g |
| Imperial | 4.4-36 lbf.in |
| Range Metric | 50-400 cN.m |
| Model Number | Standard FH |
| Drive Size | 1/4" |
| Colour | Blue |
