

Kennedy SIZE 0 3 SAFETY WOODEN FILE HANDLE

A split file handle can cause a serious industrial accident. Kennedy safety handles are rapidly becoming standard equipment in workshops. Firmly secured inside each handle and covered by a ferrule is a steel spring. This combination absorbs the pressure when the tang of the file is driven into the handle, preventing splitting or cracking. Once properly inserted the tang of the file is held in a vice-like grip that under normal use is virtually impossible to remove, unless the handle is deliberately broken.

Specifications	Details
Handle Material	Wood
Weight	1
Special Features	Safety Handle
SKU	KEN5315730GTSK
Colour	Light Tan
Size	0
Handle Length	75 mm
File Length	4 inch
Brand	Kennedy
