

Control Techniques SKDD200300- 3kW, Three Phase,200-240V AC, Commander SK Variable Speed Drive

Commander SK allows OEMs to add value to their machines whilst also minimizing the installed cost. This is achieved through a simple to install, easy to use, yet high-performance drive design with integrated features that allow advanced functions to be performed. Commander SK is robust and ideal for industrial automation systems. In 2018 SK become a legacy product. We can upgrade from SK to C200 or M400 as per the application.
