

Control Techniques SP1201-1.1kw/0.75kw, Three Phase,200-240V AC, Unidrive SP Variable Speed Drive

Unidrive SP is a complete drive automation range that covers the power spectrum from 0.37kW to 1.9MW. All drives share the same flexible control interface regardless of the power rating. Drives are packaged in three formats: Panel Mount, Free Standing and Modular. In 2018 SP become legacy product. We can upgrade from SP to M600 or M701 as per the application.

Specifications	Details
Brand	Control Techniques
Max Continuous Current (A)	5.2/4.3
Supply Phase	3
Motor Shaft Power (kW)	1.1 kW
Motor Shaft Power (hp)	1.5 hp
Voltage	200 - 240 Vac
Output Frequency Range (Hz)	0 - 550Hz
Enclosure	IP21
Dimensions (inch)	14.9 x 3.9 x 8.6
Dimensions (mm)	368 x 100 x 219
Weight lb (Kg)	5(11)
Frequency (Hz)	45 - 66 Hz
