

Engis 6x6x150mm GT320 HYPREZ DS FINISH STONE

Manufactured from carefully graded abrasive particles, mixed with the appropriate bonding agents and fired in electric or gas ovens to produce a stone suitable for roughing out cavities and dies to commercial finishes. Hyprez DS Medium/Soft Aluminium Oxide This is a popular, fast-cutting stone which does not load easily. Good for all dies and moulds. Length: 150mm.

Specifications	Details
Shape	 Square
Grade	Medium
Product Type	Stone
Weight	191 g
Product Number	DS0239409
Abrasive Material	Aluminium Oxide
SKU	ENG2551011GTSF
Grit	320
Depth	6 mm
Length	150 mm
Width	6 mm
Brand	Engis
