

Class 2 Sound Level Meter | Total measurement range 25 dBA Leq to 141 dBA Peak

The MEMS microphone in the SV 973A Class 2 Sound Level Meter has a lifetime warranty and complies with IEC 61672. The external microphone can pick up sounds as loud as 141 dB Peak and as quiet as 25 dB in the case of minimal background noise because it is made of two MEMS microphones. The SV 973A sound level meter refers to its light weight and small dimensions. It is ideal for usage when traveling.

Specifications	Details
Memory Capacity	internal 8 GB
Weight	225 g
Operating Temperature	-10 °C to 50 °C
Power Supply	4 x AAA
Dimensions	229 x 52 x 20 mm
Frequency (Hz)	20 Hz ÷ 10 kHz
