

Elitech RC-4G | Temperature Data Logger Recorder | With Glycol Bottle Temperature Sensor | Audio Alarm | MAXMIN Display

The Elitech RC-4 temperature data logger has a buzzer alert, a removable battery, and a multifunction LCD alarm indication. One of the reasons it meets the ever-increasing and dynamic need in cold chain supplies for an affordable temperature data logger. Users can export data in PDF or Excel using the Elitech data management software when using the Elitech PDF temperature data logger. Elitech incorporates an optional external temperature sensor in addition to an internal one into their temperature data loggers for convenience. Because of their extreme sensitivity, they can pick up on even minute temperature fluctuations. Because of this, Elitech PDF temperature data recorders are a superior option for the following industries: cold storage, laboratories, food, pharmaceuticals, and breeding.

Specifications	Details
Temperature Range	-30 °C ~+60 °C
Resolution	0.1 °C
Memory Capacity	16000 points (MAX)
Logging Rate	10s~24hour adjustable
Sensor Type	Internal NTC thermal resistor
Power Supply	CR2450 battery or power supply via USB interface
Dimensions	84 (L) x 44 (W) x 20 (H) mm
Weight	60 g
