

Elitech RCW-800W-THE | Temperature Humidity Data Logger | WiFi Recorder Cloud Storage | Wireless Remote Monitor

Cold watch humidity and temperature safety monitor A high-tech device based on networking technologies is the RCW-800WIFI. It is extensively utilized in the food, catering, logistics, and other sectors where HACCP system certification is necessary. It is capable of sending data to our cold-chain cloud platform via WiFi. Users can use a smartphone app or browser to remotely access, manage, and monitor data online. Additionally, it features a buzzer and a platform for alarm reminders. One temperature sensor and one humidity sensor are included with the Cold Watch RCW-800WIFI. Even in the event of a cold storage power outage, it can provide real-time data uploading and platform warning service thanks to a built-in rechargeable lithium battery.

Specifications	Details
Power Supply	5V/1A?DC)
Temperature Range	-30??+70?
Range	Light Intensity 0 - 52000 Lux
Resolution	0.1C / 0.1% RH / 0.1g/1Lux
Memory Capacity	32000 (MAX)
Protection	IP65
