

Elitech SMG-1L | Refrigeration HVAC Digital Pressure Gauge | For 87+ Refrigerants With Backlight -14.5-500 PSI

Professional digital gauges known as Digital High-Pressure Gauges (SMG series) are used for charging refrigerants and servicing, inspecting, and clearing refrigeration systems. In addition to displaying several metrics like the associated refrigerant's evaporation temperature, the gauges have the ability to measure system pressure. Among their many features are an over-range alarm, unit switch, auto-off, backlight, and others.

Specifications	Details
Measuring Units	MPa, kPa, bar, psi, kg/cm ² , cmHg
Battery	3 AAA batteries
Accuracy	+0.5%FS
Battery Life	6 months
Resolution	0.5psi
Pressure Range	-0.100 ~ 3.448MPa (-14.5-500 psi)
