

Temtop P1000 | CO2 Air Quality Monitor | PM2.5 PM10 Tabletop Detector

A straightforward yet effective air quality monitor. You get just what you need from the Temtop P1000 Air Quality Detector to monitor the levels of air quality in your home—neither more nor less. It enables you to measure temperature, humidity, CO2, PM2.5, and PM10 levels. Its integrated 2200 mAh rechargeable lithium batteries allow it to operate for roughly 6 hours before needing to be charged.
